
	GILES CHEMICAL ~ PREMIER MAGNESIA		
	Company Procedure		
	Title: Stretch Wrap/Birthing Finished Goods	Number: R12-PR-100-028	
	Owner: Kevin Hale	Revision: 4	
	Effective Date: 7/23/2013	Page: 1 of 2	

1.0 Purpose

The purpose of this procedure is to provide guidelines to follow when using the Stretch Wrap Machine

2.0 Scope

This procedure is to be performed when finished goods pallet is brought to the stretch wrap machines for birthing.

3.0 Responsibility

The utility operator or other qualified personnel are responsible for performing this procedure.

4.0 Safety Considerations

Safety glasses and steel toe shoes are required.

Safety is a condition of employment. Employees are not authorized to work in an unsafe manner and are prohibited from harming the environment of the facility or community.

5.0 Materials/Equipment

- Stretch wrap machines
- Stretch Wrap
- Kanban Card
- Bright Orange Quality Hold Stickers
- Blue QC Passed Stickers

6.0 Procedure

1. Place Finished Goods pallet on to a stretch wrapper.
2. Pull Kanban card from pallet.
3. Pull stretch wrap to pallet and secure between two of the cases on the pallet.
4. To start wrapping, press green button on control panel of stretch wrapper.
5. While pallet is wrapping, mark the production clip board with the correct sequential pallet produced ie. First pallet produced; mark a 1 off the sheet.
6. Birth the finished good pallet in Intellitrack using the Kanban card and barcode scanner.

Controlled Document

Only those quality documents viewed through the Giles Chemical electronic Documentation System are officially controlled. All other copies, whether viewed through another computer program or a printed version, are not controlled and, therefore, the Quality Unit at Giles assumes no responsibility for accuracy of the document.

7. Place Kanban card into bin corresponding with the correct production line.
8. When finished wrapping, cut stretch wrap and mark the pallet with the manufacturing date and the correct sequential number of production for that date.
9. Place pallet label that corresponds to the pallet that was birthed onto the completed pallet.
10.
 - a. **USP Pallets awaiting chemical testing** : Place one bright orange round Quality Hold sticker on the pallet label without covering any information that is on the pallet label. This sticker will remain on the pallet until it has been released after USP testing. Once released, a blue QC passed sticker will be placed over the orange Quality Hold sticker.
 - b. **Scented and Tech Grade Pallets**: Place one blue round QC passed sticker on the pallet label without covering any information that is on the pallet label. This sticker is to remain with the pallet until it reaches the customer.

7.0 Reference Documents

Carton and Pouch Production Forms (R12-FM-100-043)

8.0 Change Information

Updated procedure to include steps to coincide with current practices, *SOP Template Instructions (Q12-PR-100-004)* and *Document Numbering (Q12-PR-100-003)*

Updated to remove stretch wrapper's brand name

Added document number to the document listed in the Reference Document section.

Added section placing Quality Hold stickers onto pallet labels before entering the warehouse.

Controlled Document
