

LOT CODING EXPLANATION

FDA requires new lot and batch number designations whenever the flow of a continuous process ceases. Therefore, our Lot# is defined as follows:

i.e.: Lot # 05-0618

18 - Time period between annual shutdowns (*i.e.: Jan. 2018 to Jan. 2019*)

06 - Sequential # assigned representing time period between process idle times (usually weekly)

05 - Sequential # assigned every 24 hours- *this number is not on the COA*, it is an internal # assigned for increased traceability.

Best regards,

Lisa Hefner
