Function Specific Training

Training that provides a detailed understanding of HMR requirements applicable to the function(s) performed by the hazmat employee. Each hazmat employee must be trained on the specific functions they are required to perform.

This module consists of reading applicable procedures. Competency is measured by the successful completion of a test and/or proficient hands on demonstration of the task.

List of Procedures:

Proper Storage and Inspection of Acid Gear – S12-PR-200-017 (Complete Acid Gear Inspection Form)
Acid Unloading Procedure – P12-PR-200-005 (Acid Unloading Test)
Acid Tanks and Supply Pumps – P12-PR-200-004
Acid History Log – P12-PR-200-007 (Complete Acid Car History Log)
Unloading Acid Trucks – P12-PR-200-009
Hazardous Materials Shipping Papers – P16-PR-200-092
Shipping Papers Checklist - P16-PR-200-F092a (Shipping Papers Checklist Quiz)

Controlled Document

Only those quality documents viewed through the Giles Chemical electronic Documentation System are officially controlled. All other copies, whether viewed through another computer program or a printed version, are not controlled and, therefore, the Quality Unit at Giles assumes no responsibility for accuracy of the document.
