

## 12 Spare Parts Information and Lists

During the lifetime of the K-S Avery Filter Press Parts wear may occur requiring the replacement of different aspects of the skeleton, manifold assembly, hydraulic power unit, hydraulic cylinder and plate stack. Komline-Sanderson strongly recommends maintaining a supply of spare parts so that should an emergency arise, the filter press and other ancillary equipment can be repaired immediately. Below is a list of spare parts that Komline-Sanderson recommends for operation and maintenance of the K-S Avery Filter Press.

### 12.1 Filter Media

A spare set of filter media should be maintained at all times while the filter press is in operation. This will enable the end-user to quickly replace torn, worn, or performance restrictive filter media.

NOTE: Delivery time for filter media may take as long as four weeks depending on the manufacturing backlog.

### 12.2 Recommended Spare Parts List

Quantity	Item #	Description
1	1	Head Plate
1	2	Tail Plate
1	3	Companion Chamber Plate
1	4	Membrane Plate
1	✓ 5	Hydraulic Cylinder Piston Rod Kit
1	✓ 6	Hydraulic Cylinder Piston Packing Kit
1	✓ 7	HPU Oil Filter Element
1	✓ 8	HPU Pressure Switch System Interlock
1	✓ 9	HPU 4-Way Valve (For Opening/Closing Filter Press)
1	✓ 10	HPU Pump rebuild kit
1	✓ 11	HPU Relief Valve Cartridge
1	✓ 12	Squeeze Hose Assembly (manifold to plate w/ fittings)
1	✓ 13	Squeeze Vent Valve, 1-1/2" Normally Open air pilot op.
1	✓ 14	Squeeze Air Valve, 1/2" Normally Closed air pilot op.
1	✓ 15	Squeeze Air Pressure Regulator, 1/2" 0-100 Range
1	✓ 16	Squeeze Pressure Switch
1	17	Filter Cloth for Head Plate
1	18	Filter Cloth for Tail Plate
1	19	Filter Cloth for Membrane Plate
1	20	Filter Cloth for Companion Chamber Plate
