

**GILES CHEMICAL ~ PREMIER MAGNESIA****Company Form**Title: **Daily Metal Detector Rejection Log**Number: **R17-FM-100-193**Owner: **Thomas Evans**Revision: **0**Effective Date: **05/1/2017**Page: **1 of 1****Rejection Log Instructions:**

Please record all rejected pouches kicked off by metal detector on chart below. Fill in all boxes with appropriate information starting with the production line, date & time of rejection, and lot number of super sack. Next, place a tally mark under the column that best represents the type of metal contaminant found in the rejected pouch. Be sure to initial the last box under Operator Initials.

All metal contaminants found need to be collected and given to a quality associate. If ten or more pouches are rejected within a five minute period, the line needs to be stopped and a supervisor informed. Maintenance and Engineering then need to be notified of the issue.

Completed form will be collected each day and turned in with batch record paperwork.

Production Line	Date & Time of Rejection	Salt Lot #	Staple	Chip/Flake	Bolt	Nut	Washer	Other	Operator Initials

Supervisor Signature: _____

Date: _____
